

Restructuring case file: night-shift overtime and the line 3 closure

STRENG VERTRAULICH · KERNWERK RESTRICTED

This file concerns employees affected by the proposed closure of final assembly at Werk München, which has not been announced. It must only be processed on systems Kernwerk operates itself.

Employee	Anna Schmidt
Personnel number	KW-204518
Email	anna.schmidt@kernwerk.de
Phone	+49 89 1234 5678
Home address	Leopoldstraße 12, 80802 München
Tax ID	12345678901
Salary account	DE89 3704 0044 0532 0130 00
Line manager	Jürgen Weber
Works council representative	Petra Hoffmann, petra.hoffmann@kernwerk.de

Summary of the complaint

Anna Schmidt works rotating night shifts on gearbox line 3. Between June and August 2026 she worked 38 hours of night-shift overtime that were logged in the time system but not paid. She raised this with Jürgen Weber by email on 2 July and 30 July, and in person on 14 August. She received no written reply.

Two colleagues on the same line, Mehmet Yilmaz (KW-198230) and Laura Becker (KW-211407), report the same gap for July.

Why this file is restricted

Line 3 is inside the scope of the proposed closure of final assembly at Werk München by Q2 2027. The works council has not been informed of the closure, and the decision is not public before the results announcement on 6 November. Any summary of this case therefore carries both the personal data of the employees named above and an unannounced restructuring decision.

What the works council asks for

Back pay for the 38 hours at the night-shift rate, paid into the salary account above before the October payroll run. A written explanation of why the hours were not released. A review of the release step for the whole of line 3.

Next meeting

Joint meeting with HR and the plant manager on 1 October 2026, 10:00, room B2.14. Contact Petra Hoffmann on +49 89 1234 9021 to add items.
